

February 1, 2016

Dear Valued Customer,

It is our goal to ensure that you receive timely updates about FUJIFILM SonoSite products. As originally referenced in a memo you received at the beginning of January 2015, we are writing to remind you that we will no longer be supporting or servicing the TITAN® Ultrasound System, effective March 31, 2016. In some situations, customers are covered by a specific purchasing agreement that may provide service support beyond this date. Contact Technical Support at 877-657-8118 or 425-951-1330 if you have service questions.

Since the release of the TITAN® Ultrasound Systems, our product family has expanded significantly to include a wide range of powerful ultrasound solutions that improve the cost, safety, and quality of health care across the clinical spectrum. From our versatile M-Turbo® system to our latest product releases, like the iViz system for the on-the-go physicians, we have a solution to fit every ultrasound need in any clinical environment.

To find out more about our products and learn about attractive trade-in programs, please contact your local FUJIFILM SonoSite Representative or visit us at www.sonosite.com.

Thank you for your continued loyalty.
